

4 and 6 Hob Induction Range

Cook with Precision
and Confidence.

The American Range Advantage

Built with Hatco's industry-leading induction technology. Trusted for over 10 years. Transforming kitchens by delivering speed, precision, consistency.

Take Complete Control Of Every Dish With Industry-Leading Accuracy And Responsiveness.

- Choose precise power-level or temperature control with accuracy within + 1F.
- Dual surface temperature sensors on every hob provide exceptional consistency and control.
- Achieve repeatable cooking results for every shift, every menu, every operator.

Engineered For Performance Where Reliability Matters Most.

- Features 6mm SCHOTT CERAN glass, among the thickest and most durable cooking surfaces available.
- Works in high temperature environments due to having the highest ambient temperature in the industry, 124F

Creates A Cooler, Safer, More Productive Kitchen.

- Delivers heat directly to the cookware, minimizing wasted energy.
- Creates a cooler more productive kitchen.
- Supports lower ventilation and HVAC demands, reducing operating costs.
